

## WILLIAM BROWN

**COMPANY:** Black Tusk Development Group Ltd.

**SPECIALTY:** Design. Our construction company is based on over 25 years of residential design experience, so the architectural integrity and design continuity of our projects is paramount. Some of the resulting design benefits include: effective use of space, natural light throughout the home, and a strong connection between building and site. The layouts of our homes “flow.”

**TRADEMARK:** We listen to our clients. We embody their needs and wishes into all aspects of the building process – from our initial meetings to “welcome home.”

**FAVOURITE STYLE OF HOME:** North American!! I love home styles from the 20s through the 50s and 60s. We have such a wealth of inspirational architecture to draw upon, from Green and Green’s Craftsman homes, through Frank Lloyd Wright, the Park Rustic and Mountain Styles, to Mid-Century modern and contemporary designs.

**FAVOURITE ROOM:** It’s predictable, the Great Room. Soaring ceiling, timber and stone fireplace, sweetie by my side, puppy at our feet, spectacular red wine, fire blazing, lights dimmed, James Taylor singing to the three of us, and looking out the windows on a snowy evening. What more could you ask for?

**SOMETHING EVERY HOME SHOULD HAVE:** It’s a “must have;” a truly functional Gear Room that has been thoughtfully designed to meet the needs of the homeowner. We are a collection of very busy, geared-up people, and having a proper space to start and finish our daily adventures makes the experience that much better.

I love what I do for a living, and have been fortunate to have worked with the many skilled trades and artisans in the Southern Georgian Bay area. Together – with our amazing clients – we have created truly special spaces!
